NUMB. 10.

No 1669.

M A I L arriv'd on Saturday from Holland, with Advice from Germany, That Expresses are flying about to the Princes of the Empire, and all the Courts of Europe, with the melancholy News of the Death of the Emperor; of which the following Account from the London Gazette deserves the first Place.

Vienna, Oct. 20. N. S. On the 5th Instant the Imperial Court went to Halbturm: That and the next Day the Weather was very fine. On the 7th began a severe Frost. On the 8th in the Morning the Earth was covered with Snow: The Emperor however went at Noon to hunt, and staid abroad till Six in the Evening: That Night was so cold, as to kill the Wheat in this Country. On the 9th the Emperor was indisposed. The 10th and 11th he continued out of Order: Yet he hunted on the 10th, and would have gone the 11th and 12th, had not the Weather been extremely rigorous: He went however on the 13th to his Stud, and staid there in the Cold for three Hours; by all which his Disorder was increased. On the 14th he resolved to return to the Favorites, tho' the Weather still continued very sharp, and at his Arrival there in the Evening was feverish: That Night and the 14th he had some Ease; but on the 15th his Disorder became violent. In the Evening his Ministers were near two Hours with him, and he signed several Papers: The same Night he was blooded twice in the Foot, which gave him some Relief: But on the 16th and 17th he grew worse and worse. On the 18th he took the Sacrament publicly at Noon; the 19th at Two in the Morning he received the Extreme Unction; and at Half an Hour after One o'Clock this Morning he expired.

Letters from Ratisbon, Cologne, Cleves, and divers other Parts say, that the Emperor was taken with a violent Cholick, owing to an Indigestion, which was followed with a continual Vomiting and a Fever, and that he dy'd of an Inflammation in his Bowels.

A particular Letter from Vienna says, that last Thursday Fortnight, the Day on which his Imperial Majesty dy'd, his eldest Daughter **MARIA-TERESA-WALPURGE** (marry'd to the Great Duke of Tuscany) was proclaim'd Queen of the Romans, Queen of Hungary and Bohemia, Princess of Transylvania, Archduchess of Austria, and Successor to all the Hereditary Dominions of the House of Austria, according to the Dispensation which the Emperor made on the 8th of April, 1713, by the Name of the *Pragmatic Sanction*; which was approv'd by the Majority of the States of the Empire in 1732, and is guaranteed by Great Britain, the States-General, and Denmark; and was oppos'd by the Electors of Saxony, Bavaria, and the Palatinate, and the Bishop of Freysingen and Ratisbon.

The deceased Emperor of Germany was Charles-Francis of the House of Austria, the Sixth of that Name, born the 21st of September, O. S. 1685; elected Emperor Oct. 2, 1711. crown'd King of Hungary May 10, 1712. and King of Bohemia Sept. 5, 1723. He marry'd at Barcelona, on the 12th of August, 1708. Elizabeth-Christina, Daughter of Louis Rodolph, late Duke of Brunswick-Blankenburg, and Christina Louisa, Daughter of Albert Prince of Oeringen.

The said Empress, now his Dowager, who was born the 18th of August, 1691. abjur'd the Lutheran for the Roman Catholick Religion the 20th of April, 1707. and has had the following Children by him;

I. Leopold-Joseph, born in 1716. but dy'd the same Year.
II. Maria Theresa Walpurg, born the 2d of May, 1717. and marry'd to Francis Stephen Duke of Lorraine, the 21st of January, 1736. to whom she has been one Daughter, Mary Elizabeth Amelia, Jan 25, 1737. and another Daughter born in 1738, in September.

III. Maria Anna Leonora Wilhelmina, born Sept. 3, 1718.

IV. Maria Amelia Carolina, born in 1724. and dy'd in 1730.

The Emperor's Father was Leopold, who was born Sept. 14, 1640. chosen Emperor July 18, 1658. and dy'd April 24, 1705. having had three Wives; and by the third Wife, viz. Eleonora Magdalena of Neubourg (the Daughter of Philip William Elector Palatine) he had Ten Children, Five of whom dy'd young. They that surviv'd were the two last Emperors Joseph and Charles; Maria Elizabetha, now Governess of the Austrian Netherlands, born the 3d of December, 1686; Maria Anna, born Aug. 28, 1683, and marry'd at Lisbon the 26th of June, 1708. to John V. the present King of Portugal; and Maria Magdalena, born March 16, 1689. who resides at Vienna unmarried.

The deceased Emperor, after a War of 14 Years, carry'd on with the Assistance of the Emperors Leopold his Father, and Joseph his Brother, to make himself Master of the whole Spanish Monarchy, made the Peace at Rastadt in 1714 with France, as he did at length with Spain, by the Treaty of Vienna in 1725 on these Conditions; That renouncing the Spanish Monarchy, he should keep the Kingdoms of Naples and Sicily, and the Ports and Places situate on the Coasts of Tuscany, and that Part of the Netherlands which formerly belong'd to the Crown of Spain. But by virtue of a subsequent Treaty with France in 1735. the Emperor parted with Naples and Sicily to Don Carlos, the King of Spain's Second Son, who is now styled King of the Two Sicilies; in Lieu of which the Succession to the Duchies of Tuscany, Parma and Placentia, were entail'd upon him, on the Demise of the Great Duke.

Copenhagen, Oct. 25. N. S. The 4th and 5th of this Month it began here to freeze and snow; which Kind of Weather has continued with short Intervals ever since, so that the Price of all Provisions is daily rising, and it is likely there will be a very great Scarcity this Winter, especially if the Sea should be shut up as it was the last. In order to prevent such a Calamity, as much as possible, an Edict was published the 19th Instant, strictly prohibiting the Exportation of Corn and Butter from the Kingdom of Denmark, till further Order.

Letters of the 30th ult. O. S. from Madrid say, that the King of Spain has a Tertian Ague, but having taken some Powders, there were Hopes of his Recovery. He was first seiz'd on the 28th, when he kept his Bed all the Day; and the Queen has never stirr'd from his Apartment since.

They write from Carthage, that on the 24th ult. Admiral Haddock came before that Harbour with five Ships of his Squadron, and cannonaded a Fort in that call'd Scambraria or Mackarel Island, upon which the Governor sent a Detachment to reinforce the Garrison, and the Commanding-officer return'd a brisk Fire upon the Squadron, which however continu'd to play upon the Fort till Night, and then bore away.

Letters of the 2d Inst. from Toulon say, that four Men of War of the Squadron that lately sail'd from thence are return'd thither, viz. two of 94 Guns each, one of 78, and another of 54, all under the Command of M. de Gabaret. They parted from the rest of the Squadron 40 Leagues from the Straights of Gibraltar. The News of it comes with these Particulars: The Commodore, viz. the Marquis de la Roche-Allard, having open'd a Packet from Cohet, found a Packet inclos'd for Gabaret, to whom he gave it, and it contain'd three Letters to this Officer, one of which was an Order for him to sail for the Straights with his four Ships, and not to open the second Letter till he came to that Latitude. When he came thither, he found an Order to return into the Mediterranean, and not to open his third Letter till he was 20 Leagues off. When he came to that Distance, he there found an Order commanding him forthwith to return to Toulon. They add, that there are six Men of War in that Harbour ready to be fitted out, and that there are two new ones building in the Dock, one of which is bar'd for 80 Guns, and the other for 60.

They write from Paris, that the Lord Waldegrave is on the mending Hand.

And from Hungary, that the Contagion there is very much abated.

By the late Inundation of the Danube, occasion'd by the hard Rains about Mentz, the little Town of Durlingen in the Duchy of Wirtemberg was laid under Water, and the Postboy carrying the Letters from

the Empire, Holland and England, was drown'd, but the Horse swam and carry'd the Mails back safe to Durlingen.
